C. D. 0-47-200471-8

13 November 1967

Page 1 of 3

## EVALUATION SUMMARY

## Mission BX-6733

- 1. Processing and Titling Performed in the field
- 2. Physical Condition Fair
- 3. Hypo Retention Negligible
- 4. Exposure(based on density) Light to medium
- 5. General Comments:

In general, the physical quality of the film is fair. More than a normal amount of base and emulsion scratches and embedded dirt are present intermittently throughout.
